

LOQATE

Global Location Intelligence

Search

The Loqate Search solution provides rapid and accurate contact data entry into any web forms, eCommerce and call center applications.

Using the unique Loqate SmartMatch technology, users are returned instant results based on each character entered into the form, providing an intuitive experience for the user and ensuring only accurate data is entered into the database. The result is guaranteed clean data entry, positive customer experience and reduced support costs due to greater efficiency in support interactions.

Rapid & accurate data capture for call centers & eCommerce, providing a positive customer experience

The screenshot shows the 'New User Registration' form in the Loqate MyProfile system. It includes sections for User Information, Primary Address, Shipping Address, My Community Memberships, and Subscription Center. The 'Company' field is populated with 'Loq' and shows a dropdown with 'Loqate, Inc. (1 result)' and 'Lo-Q Inc (1 result)'. The 'Country' is set to 'USA'. There are 'Create' and 'Cancel' buttons at the bottom right.

Key Features & Benefits

- Rapid and accurate entry of contact name and address into web and call center applications
- Reduce keystrokes required to enter data by up to 80%
- Improve the customer experience by not having to spell out the address
- SDK available to run on Windows, Linux, UNIX 32/64-bit, or through the Loqate SaaS environment
- API's in C++, Java, .Net, PHP, JSON, SOAP, Atom
- Validates data against the extensive Loqate Global Knowledge Repository of worldwide reference data
